RELEVANT SOFTWARE SKILLS:

Adobe CS5: Photoshop, Illustrator, Dreamweaver, Flash, After Effects, Premiere Pro, Audition
Microsoft Office: Word, Excel, Power Point, Visio

PROGRAMMING LANGUAGES:

- PHP and MySQL
- JavaScript/jQuery
- Actionsript 3.0
- xhtml 1.1, HTML 5
- CSS2, CSS3

RELATED EXPERIENCE

The John C. Art Ballet

Lead Developer

January 2010 – March 2010

- Worked in a group of 5 people to develop a high-content site for a non-profit organization.
- Assigned tasks to each developer based on their technical knowledge, and ability to deliver the assignment within a scheduled time.
- Developed the majority of the website's public features, as well as the most advanced features in a content management system for the website's dynamic content.

689 Design

Long Beach, CA

July 2009 – October 2009

Intern

- Tested completed websites for typos, inconsistencies, and errors before final launch.
- Worked directly with the Creative Director to plan and design a new website for the company.
- Introduced semantic markup and style sheets to a team of developers accustomed to using tables as a layout tool for building websites.

EMPLOYMENT

The Art Institute of California—Orange County Santa Ana, CA August 2009 – March 2010

Student Tutor

- Provided one-on-one assistance to students in need of additional instructional time in web programming including html/css, JavaScript, PHP and Actionsript 3.0

Best Buy

Stockton, CA

August 2005 – February 2007

Customer Specialist

- Worked directly with customers on a non-commission basis in the Digital Imaging department to find the most appropriate solutions for their needs in a digital camera or camcorder.
- Communicated the importance of "add on" accessories for the core product to increase customer satisfaction with their purchases, as well as increase daily revenue for the store.

ADDITIONAL ACTIVITIES

Founder and President of "iNet"

- Organized peer tutoring sessions, social events and workshops for emerging web technologies not yet taught in classrooms.
- Taught workshops on semantic markup and cross-browser CSS techniques; Wordpress as a digital portfolio for graphic designers; and introduction to database-driven PHP.
- Selected to represent the web design student body on the Program Advisory Committee.
